- Bachelor of Engineering in Information Technology, CGPA: 7.15

Government Polytechnic, Pune.　　　　**Autonomous Institute**　　　　**Aug 2012 – June 2015**
- Diploma in Computer Engineering, Percentage: 79.00

Projects

- **UDS implementation with Salesforce PWA kit for French multinational corporation (Feb 2022 - present) -** Currently, we are building an ecommerce website using ReactJS for client that will work across different OS and different browsers. This project includes BFF layer implementation along with SFCC (salesforce commerce cloud).

- **Retail Dashboard for American multinational corporation (Mar 2021 – Dec 2021)** Created store health monitoring dashboard using ReactJS and wrote test cases using React Testing Lib and Jest (Test coverage - 84.90 %). The backend was developed in Node JS and we deployed it on AWS. Followed best practices while developing application.

- **Ask the Magic Eight Ball** (2021). Created front-end UI using ReactJS and Deployed it on Firebase. It is a fun game where you ask the yes/no type question and it gives you mostly accurate answers.
  Link - React App (ask-the-magic-eight-ball.web.app)

- **Spotify Clone** (2020). Created front-end UI using ReactJS and Deployed it on Firebase. Implemented User authentication and playlist retrieval using Spotify web API.
  Link - https://spotify-clone-3cb2b.web.app

- **Phono** (2020). Phono is a dummy landing page created using HTML5, CSS3, and jQuery. The product gallery is implemented using the "SimpleLightbox" jQuery plugin. It is deployed on Netlify.
